

INTRODUCTION

Jump into the magic of fairy gardening in volume 3 of Teelie Turner's book 'A Beautiful Look at Autumn...Through the Eyes of a Fairy Garden.' This is a chance to sit back and enjoy this stunning book that has amazing photos and descriptions. Let it ease your mind and inspire you to create your own fairy garden if you so desire. The images in the book are just suggestions of what you can create. If you'd like to create your own garden, feel free to mix and match items, or experiment with different options. The Wee Folks are very receptive when it comes to trying new things and they'd love to spend some time in your garden. Or, if you're a true believer, they'll happily sit by your shoulder and look at the pictures with you. You might not see them, but they are there.
